sleeping & work, severely diminishing my quality of life. David worked miracles. He always ensured that I was comfortable during the acupuncture treatment. He helped me to avoid unnecessary

TMJ Specific Orthopedic Exam:
Establishes baseline levels of pain & functional
limitations, from which results of treatment can be
evaluated

Identifies deficiencies in range of motion of head, neck & shoulder, & inhibitions of muscles affecting the movement of the Tempo-Mandibular Joint

Intra-Oral Massage: Key component for treating the muscles inside the mouth
Intra-Oral Massage improves the ability to open & close jaw, without pain

Motor Point & Trigger Point Treatment: This modality dis-inhibits muscles, improving range of motion of jaw, neck & shoulder, restores function & relieves pain in all areas associated with TMJ dysfunction.

Perfusion Treatment: Improves Blood Flow to Head, Neck, Shoulder & Upper extremities & complements action of Motor/Trigger Point Treatments

Soft Tissue Work: These modalities maintain results of the initial treatments & help to remodel the soft tissue to normalize structure & function.

Chinese Herbal Formulas: Complements & extends effects of Acupuncture treatments, & greatly assists with stress management
